PROJECTS

Personal Website — *HTML, CSS, Javascript, Node.Js, Express, EJS, and NPM*

My Own personal website

Tattoo Shop Mock-Up — *HTML, CSS, Javascript, and EJS*

A tattoo shop mock-up website with worker info and a gallery with all their work. Has an image viewer to view the images and cycle through them using Javascript

Twitter Clone CRUD — *HTML, CSS, Javascript, EJS, and RESTful Routes*

A twitter clone with full CRUD and randomly generated users with randomly generated tweets

Weather App — *HTML, CSS, Javascript, EJS, and Axios*

Weather app that uses an api (Yahoo Weather) to look up the weather in a location using a zip-code and display it along with the date, location, and summary
