PROJECTS

Scripts

[Repo](#)

- Developed a suite of utility scripts using Bash and Python to facilitate various tasks involved with a Linux system
- Created a script to automate system updates using apt, zypper, or dnf package managers
- Improved workflow by implementing scripts used to streamline various tasks like creating predefined files, pushing or pulling code, and opening applications using certain configurations
- Documented installation process and defined all scripts with clear instructions on usage in the README file, ensuring ease of use for anyone

Download File Sorter

[Repo](#)

- Developed a Python script to automate the organization of downloaded files in a Linux system
- Utilized file extensions to intelligently sort files into user-defined directories, saving time and effort
- Implemented a user-friendly approach that allows users to easily define their own configurations
- Organized the script into modular components to enhance readability and simplify collaboration

WORK EXPERIENCE

Facilities Porter, United Building Maintenance – Wilmington, DE

Aug 2017 – Present

- Demonstrated strong problem-solving and critical thinking skills by analyzing complex facility issues, identifying root causes, and implementing effective solutions
- Collaborated effectively with staff to coordinate tasks, resolve challenges, and ensure smooth facility operations, demonstrating strong communication and teamwork skills
- Provided excellent customer service by working closely with clients to understand their needs and address any facility-related concerns
- Maintained accurate inventory and equipment records, showcasing strong attention to detail
